# Feedback Form

Questionnaire style survey

Can make on google forms but that doesn't look professional.

<https://bit.ly/3HNA9YK> - can use this too for templates.

Mix of rating system and open-ended questions

Limited questions to only the most essential questions

Ensure the form is responsive across all devices

No gantt chart, we will finish it by next week.

We were able to work well considering the team has just come together today.

We are currently behind, but we communicate well and have good chemistry so it's possible to work together.
